

Eco-Investing

The global strategy of Martin Investment Management, LLC combines the Growth with a Value Discipline approach to investing with investing in global businesses that positively impact the environment through their good stewardship and environmental practices. Global Eco-Investing is actively managed with a focused portfolio of approximately 25 to 30 large capitalization global equities. Our stock selection process for this strategy is based on discovering growing companies with strong fundamentals, attractive valuations, and solid environmental practices. We research and analyze the ability for the companies to achieve a satisfactory return on investment and to engage in best environmental practices. We base our decisions on how well the company exceeds industry standards. We include only those businesses we believe effectively establish themselves as good stewards and are solid investments that can be held over a long-term horizon. This strategy invests in the securities of a variety of corporations that embrace recycling, open space, water purification, and clean energy sources. The strategy is carbon and extraction industry free.
