Lipper MarketPlace is an investment manager database that serves as an independent, third party information source.

Lipper MarketPlace's Best Money Managers, owned by Thompson Reuters, rankings are based on a survey of institutional money manager performance. All performance is reported net of fees and inclusive of cash.

The minimum criteria for inclusion in Best Money Managers are that performance must be calculated net of all fees and brokerage commissions, performance must be calculated inclusive of all cash reserves, performance results must be calculated in US dollars, performances results must be calculated on an asset base which is at least \$10 million in size for traditional US asset classes or at least \$1 million in the case of international and alternative US asset classes, and the classification of the products falls in a category that has at least 20 contenders.

The ratings listed above are generally relevant to investment consultants, plan sponsors, existing clients, potential clients, and others in performing manager selection and on-going performance reviews. These ratings are only one of many factors that are relevant in determining whether to retain a portfolio manager.
