

“Best Ideas” Growth with a Value Discipline

The core “Best Ideas” strategy for Martin Investment Management, LLC is actively managed with a focused portfolio of approximately 25 to 30 large capitalization U.S. domestic equities and international ADRs. We invest in stocks that we view as high quality with above average growth rates that are purchased at favorable price/earnings ratios. Our firm believes that holding a focused portfolio of approximately 25 to 30 stocks over a long-term horizon improves the portfolio’s Active Share and the probability of outperforming the market over time. Growth with a Value Discipline has a quality emphasis and is based on fundamental valuation methods. The approach is focused on whether the investor would want to buy the business as a whole if there were an opportunity to do so, rather than just buying a stock certificate. The firm always looks at the basic economic characteristics of the businesses in which it is investing and then overlays its valuation methodology in making the investment decisions. The companies typically have high returns on equity, low leverage, good growth prospects, and strong market niches. Since the philosophy promotes the compounding of wealth over time, there is a low rate of portfolio turnover. Although our investment focus for our core strategy has remained consistent since the firm began in 1989, this strategy can be customized for client preferences to reflect all market sectors and/or to maintain restricted limits on individual positions.

Best Ideas Growth with a Long Term Discipline

© 2022 Martin Investment Management, LLC (“MIM”) is an independent registered investment advisor specializing in equity-oriented investment management.

Martin Investment Management, LLC claims compliance with the Global Investment Performance Standards (GIPS®). To receive a list of composite descriptions of Martin Investment Management, LLC and/or a GIPS Report please contact Martin Investment Management, LLC. Please contact Patrick A. Martin at (847) 424-9124, or write Martin Investment Management, 1560 Sherman Ave, Evanston, IL 60201, or email info@martin-investments.com.

Returns are calculated using gross returns. The returns in this presentation include the reinvestment of income. Dividends are accrued as of the ex-dividend date and interest is accrued monthly and in each case are accrued gross of non-reclaimable withholding taxes.

The S&P 500 is an unmanaged, widely used index with no expenses, which covers 500 industrial, utility, transportation and financial companies of U. S. markets. It is a capitalization-weighted index calculated on total return basis with dividends reinvested. This presentation uses the iShares Core S&P 500 ETF, which tracks the S&P 500 Index, as a proxy for the Index.
